ABOUT ME

Professional Summary:

Mechanical engineer with about two years of experience in industrial kitchen design and mechanical layouts, including facilities serving up to 14,000 meal packs per day. Recently completed HVAC design training covering heat load calculation, duct sizing, AHU selection and chilled water systems, using HAP, Revit MEP and AutoCAD. Looking for an HVAC Design Engineer role in Europe, building on MEP coordination and technical documentation experience from industrial projects.

EDUCATION & TRAINING

18/08/2019 - 21/04/2023 - NAMAKKAL, INDIA

B.E MECHANICAL ENGINEERING- PAAVAI COLLEGE OF ENGINEERING

-Studied the basic principles of mechanical engineering, technical subjects, engineering design, manufacturing processes, and practical applications of engineering.

Level in EQF: 6

01/06/2017 - 17/04/2019 - VIRUDHUNAGAR , INDIA

HIGHER SECONDARY CERTIFICATE- NOBLE MATRIC HIGHER SECONDARY SCHOOL

Level in EQF: 4

WORK EXPERIENCE

13/11/2024 - 31/07/2026 - BANGALORE , INDIA

DESIGN ENGINEERLORMAN KITCHEN EQUIPMENTS PVT LTD

Responsibilities:

- Designed layouts and mechanical systems for industrial kitchens of up to 14,000 meal packs per day, covering equipment placement, process flow and HVAC planning.
- Selected and scheduled kitchen equipment, sizing components to suit capacity and available space.
- Coordinated HVAC, electrical, drainage and utility requirements with clients, architects, MEP consultants and site engineers. Prepared BOQs, fabrication drawings, shop drawings and technical submittals for client and contractor review.
- Built 3D models and walkthrough animations used for client approvals.
- Supported projects from concept layout through to commissioning.

15/08/2023 - 29/02/2024 - COIMBATORE, INDIA

JUNIOR DESIGN ENGINEER FREEZETON TECHNOLOGIES AND KOVAI KIOSK

- Prepared mechanical drawings and component designs in SolidWorks and AutoCAD for industrial equipment and kiosks.
- Assisted with equipment layout planning and product design across several projects.
- Worked from product specifications and manufacturing requirements.

SKILLS

HVAC engineering | • HAP | Revit (HVAC) | ventilation systems | Duct Sizer Software for HVAC Duct Sizing | Good skills for the use of HVAC design software. | Drafting drawings using AutoCAD | CAD software | 2D and 3D design software (Solidworks, AutoCad) | Solidworks (Certificazione CSWP) | Autodest Revit at user level | Kitchen Design | preparation for parenthood | update language skills | project management | execute analytical mathematical calculations | technical drawings | use technical drawing software | design principles | manage engineering project | define technical requirements | mathematics | engineering processes | engineering principles | interpret technical requirements | circular economy

LANGUAGE SKILLS

Mother tongue(s): **TAMIL**

PROJECTS

01/05/2025 - 10/02/2026

Hyundai Motors India Pvt. Ltd. - Industrial Kitchen Design Designed and executed a complete industrial kitchen facility with a capacity of 14,000 meal packs per day. Scope included full layout design, equipment selection, HVAC planning, electrical layouts, drainage and grating system design, and commissioning support.

11/03/2025 - 15/01/2026

Lloyds Metals and Energy Pvt. Ltd. - Industrial Kitchen Design Designed and executed a complete industrial kitchen facility with a capacity of 10,000 meal packs per day. Scope included full layout design, equipment selection, HVAC planning, electrical layouts, drainage coordination, and commissioning support. Along with Waste management system and workflow management.

27/11/2024 - 15/02/2025

Tata Steel Kalinga Nagar - 3D Kitchen Design and Walkthrough Animation Created a complete 3D industrial kitchen design and produced a 20-minute walkthrough animation covering the entire facility for client presentation and approval. The high-capacity facility is engineered to facilitate around 60,000 meal packs per day , incorporating optimized layout planning, comprehensive equipment placement, ventilation/HVAC integration, waste management, and streamlined workflow for large-scale industrial kitchen.

25/09/2025 - 21/11/2025

ITC - 1-Ton Batch Roaster Machine Design Designed a custom 1-ton batch roaster machine for Soji including mechanical drawings, assembly design, and fabrication documentation.

15/11/2025 - 15/07/2026

NAGA - Paratha Making Machine Design Designed an automated paratha-making machine from concept through to fabrication drawings.
